BEFORE YOU SEND

Three rules that keep your list happy

1

Only send to people who said yes

UK GDPR and PECR: past direct guests under the soft opt-in, plus anyone who gave clear consent. Never pull emails out of platform messages.

2

Once or twice a month, tops

Each send should carry real news: dates, a price, a new place.

3

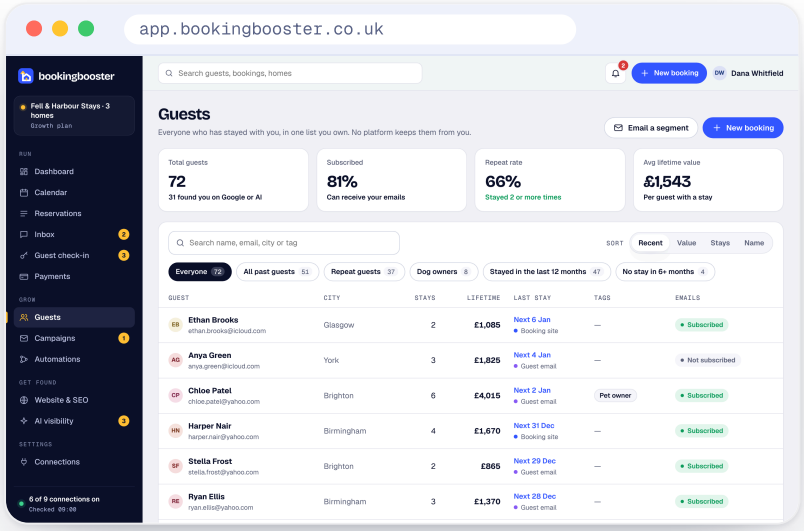

Make leaving easy

One-click unsubscribe in every email. End every text with "Reply STOP to opt out". Honour it at once.

A year of campaigns

A starting calendar. Swap in your own season and events.
