FREE CHECKLIST · 7 DAYS

Launch your direct booking site in a week.

One focused job a day. By day 7 you have a site that takes bookings and payments, a check-in flow guests can finish on their phone, and your first email out to past guests.

7 DAYS · 42 TASKS · PRINT AND TICK

Demo property site and guest app built with Bookingbooster.

DAYS 1 TO 3

Set up the site

1 DAY 1
Pick your name and domain

- [ ] Choose a name guests will type. Your property name beats your company name.
- [ ] Buy the .co.uk or .com. Short, no hyphens, easy to say out loud.
- [ ] Set up a matching email address, like stay@yourcottage.co.uk.
- [ ] Write one sentence that says what makes the stay special.
- [ ] List your 3 best features (hot tub, views, walk to the pub).
- [ ] Collect your logo or pick a clean text logo.

2 DAY 2
Build the pages that sell

- [ ] Hero photo plus a headline that names the place and the payoff.
- [ ] Gallery of 15 to 25 photos in room order. Bright, wide, real.
- [ ] The home: beds, baths, sleeps, kitchen, parking, Wi-Fi speed.
- [ ] Reviews. Quote real guests with their permission and first name only.
- [ ] Area guide: 6 to 10 places you actually recommend.
- [ ] FAQ: pets, check-in time, parking, kids, accessibility.

3 DAY 3
Take payments the right way

- [ ] Connect a payment provider (Stripe or similar) to your site.
- [ ] Set your deposit or damage hold amount and when it releases.
- [ ] Write the cancellation policy in plain words. Match your platforms.
- [ ] Check local rules: Scotland's short-term let licence, London's 90-night limit, any visitor levy.
- [ ] Make a test booking end to end with your own card.
- [ ] Check the confirmation email reads well on a phone.

DAYS 4 TO 7

Get found, set up stays, launch

4 DAY 4
Get found on Google and in AI search

- [ ] Create or claim your Google Business Profile with the site link.
- [ ] Write a page title and description for every page.
- [ ] Add one local page, like "Cottage with hot tub near `{town}`".
- [ ] Submit your site to Google Search Console.
- [ ] Ask ChatGPT "best stays with `{feature}` near `{town}`" and note who shows up.
- [ ] Make your name, address and phone the same everywhere.

5 DAY 5
Gather your guest list

- [ ] Export guests you can contact: direct bookings, past enquiries, your own records.
- [ ] UK GDPR and PECR: past direct guests can get offers under the soft opt-in if they could opt out when booking. Everyone else needs consent.
- [ ] Tag them: repeat guests, families, pet owners, last stay date.
- [ ] Add an opt-in box to your site for future offers. Leave it unticked.
- [ ] Write a short privacy notice: what you send, how often, how to unsubscribe.
- [ ] Pick your sender name. A person beats a brand.

6 DAY 6
Set up check-in and messages

- [ ] Online check-in: ID, rental agreement and deposit before arrival.
- [ ] Door code that only unlocks once check-in is complete.
- [ ] Pre-arrival message 3 days out with the check-in link.
- [ ] Check-in day message with directions and parking.
- [ ] Checkout message with the 3 things you actually need done.
- [ ] Thank-you message that asks for a review and invites them back.

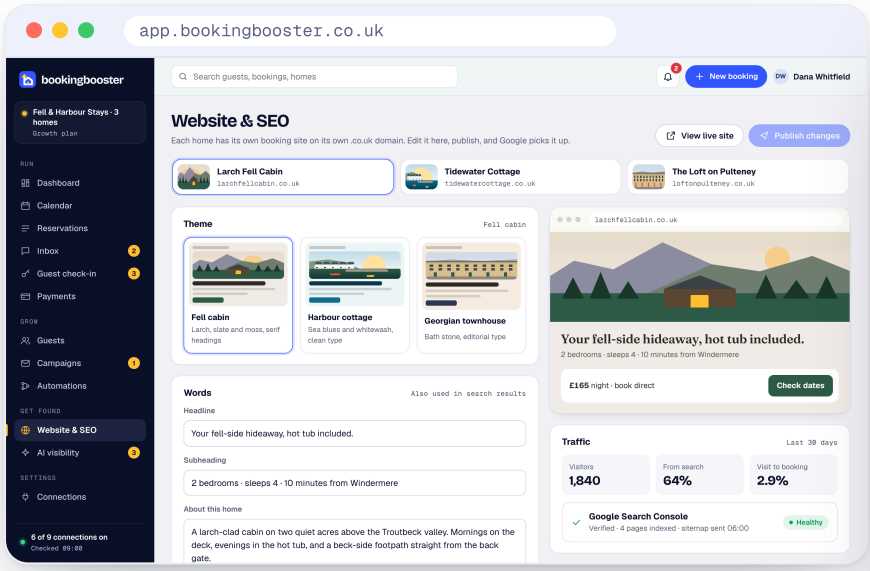

7 DAY 7
Launch and tell people

- [ ] Send a launch email to past guests with a returning guest rate.
- [ ] Put the site link in your welcome book, on the Wi-Fi card and the fridge magnet.
- [ ] Add the link to your Instagram, Facebook and Google profile.
- [ ] Text your best repeat guests personally.
- [ ] Book a 30-minute check in 2 weeks: visits, bookings, questions.
- [ ] Celebrate. You now own a booking channel.

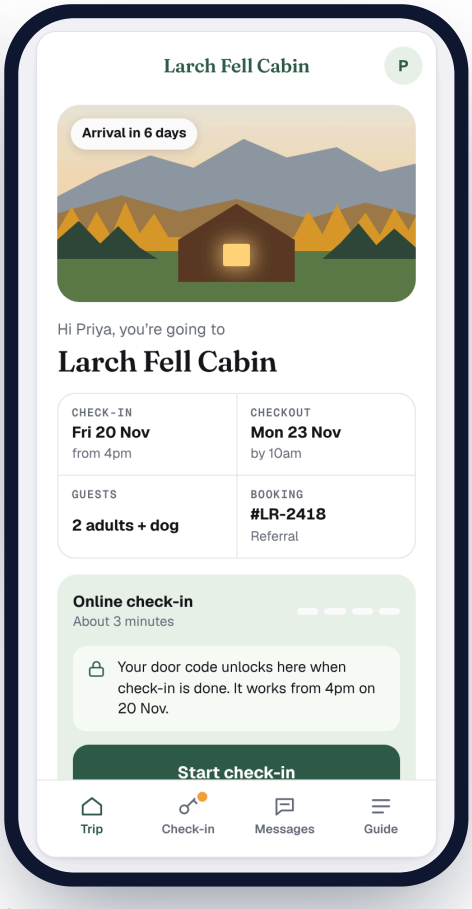

SHORTCUT

Or skip the week. We set it up for you.

Bookingbooster does days 1 to 7 with you. You send photos and answers. We build the site, connect payments, switch on check-in and draft your launch email.

Demo account. Edit words, pick a theme, publish.

Guest app with check-in and door code.

STARTER
